

About TheCapitol.Net

We help you understand Washington and Congress.™

For over 30 years, TheCapitol.Net and its predecessor, Congressional Quarterly Executive Conferences, have been training professionals from government, military, business, and NGOs on the dynamics and operations of the legislative and executive branches and how to work with them.

Instruction includes topics on the legislative and budget process, congressional operations, public and foreign policy development, advocacy and media training, business etiquette and writing. All training includes course materials.

TheCapitol.Net encompasses a dynamic team of more than 150 faculty members and authors, all of whom are independent subject matter experts and veterans in their fields. Faculty and authors include senior government executives, former Members of Congress, Hill and agency staff, editors and journalists, lobbyists, lawyers, nonprofit executives and scholars.

We've worked with hundreds of clients across the country to develop and produce a wide variety of custom, on-site training. All courses, seminars and workshops can be tailored to align with your organization's educational objectives and presented on-site at your location.

Our practitioner books and publications are written by leading subject matter experts.
